ITAG provides one stop solution for all Intellectual Property (IP) protection and management, including those relating to Patents, Trademarks, Designs and Copyrights. We provide all our services with assured quality and at a competitive price through a network of strategically located Corporate, Commercial, Legal and Technology Recourse Centers and through our strategic alliance and associates. Security of your data is of utmost importance to us and we have developed and implemented strictest possible data control mechanisms within our organization. We are an ISO 9001:2000 (Quality Management) and ISO / IEC 27001 :2005 (Information Security Management) certified organization. ITAG's aim is to commercialize Intellectual Property Assets in various fields of Technology, Our key strengths include a strong techno-legal team of professionals, each being expert in his own domain. The in-house expert team has access to a wide network of foreign associates to support our national and international activities.

➤ our objective

ITAG is different in its approach as compared to many Patent and Trademark attorney firms in this country because of our focus on Intellectual Property Assets Management. We consider IP as a distinct and most variable intangible asset which needs to be identified and properly managed, Our role is to advice proper accounting and valuation of IP. We also advise on IP risk management by minimizing IP litigation and also for proper protection and enforcement of various types of IPRs in the organisation so that neither our client infringes others IP nor others can infringe our client's IP. ITAG provides integrated end-to-end IP management services that enable clients to optimize their returns from R&D and IP.
